Dear Emeliza.

I filled out the new 1008 form as you requested around 3pm today and immediately after I sent it to you as a PDF attachment. When I later forward you other emails, I was under the impression that you already received my new online application. Just after receiving your last email, I checked my sent emails and found out that my online application was sent empty because of some technical reason. It also appears that I can't save it to my computer, so I printed it out, signed, scanned and attached it to this email.

Respectfully yours,

Amir Bodenstein
